

# 5<sup>th</sup> Grade Tigers

Need help with

test prep?

Reading

Writing

Math

Science

The average cost of tutoring by a certified teacher is \$40 an hour. This means that tutoring for 6 sessions, can set you back \$240 a month! I am offering quality tutoring in the 4 tested 5<sup>th</sup> grade subjects to help your child be successful. Fifth grade is a critical year that sets the stage for middle school. Magnet programs, IB programs and other competitive middle school programs look at grades AND test scores to determine eligibility. You will receive 6 sessions a month for almost half the price, that's only \$25 a session! This club will be \$150 a month for 6 sessions. Once you register you will get a calendar of the dates. All materials are included in this price. Please email Mrs. Naranjo if you are interested at [anaranjo@academicharterschoolpreparatory.com](mailto:anaranjo@academicharterschoolpreparatory.com). You may submit payment to the homeroom teacher or the office with the registration form available online or in the main office. Remember you must pay a small one-time fee for insurance for any after school club.
