Get Ready for School! Summer Reading Activities 2024

Dear Guardian and Student,

Just like math, regular practice over the summer with reading will help your child prepare for entering the next grade. Reading can help our imaginations flourish and introduce us to new cultures, experiences, and situations that will help our children to grow. Reading together over the summer will help your child thrive in the upcoming school year. Students should read the grade specific book that has been chosen for them and be prepared to discuss their literary journey with the rest of the class when school begins. Reading is an important part of our experiences in life and the earlier we fall in love with a good book the more we will ignite our passions.

Al igual que las matemáticas, practicar la lectura durante el verano ayudará a su hijo a prepararse para ingresar al siguiente grado. La lectura también ayudarán a nuestros hijos a comunicarse con nuevas culturas, experiencias, situaciones y a desarrollar la imaginación. Leer juntos durante el verano ayudará a su hijo a prosperar en el próximo año escolar. Los estudiantes deben leer el libro que se le ha elegido para el grado que le corresponde y estar preparados para discutir su viaje literario con el resto de la clase cuando comiencen las clases. La lectura es una parte importante de nuestras experiencias en la vida y cuanto antes debemos descubrir cual es libro que nos encienda nuestras pasiones por la lectura.

Sincerely,

Darliny Katz

ACADEMIR SUMMER READING 2023-2024

Summer provides a plethora of opportunities for students and their families to enjoy unforgettable books and create lifetime memories.

AcadeMir students entering K-8th grade are required to read from the summer reading lists developed by our Academic Team for the upcoming grade.

Creating lifelong readers is one of the greatest gifts that we can give our children. We want our students to have a fun summer break while also pursuing reading for enjoyment at the same time.

Research has shown that the single greatest factor in predicting reading success is whether a child is read to when they are young. All of our students are to read the selected book for their grade.

These assignments are for a grade and should be completed and turned in to your student's new ELA teacher by Friday, August 23rd.

Happy Reading and enjoy your summer break!!!

3rd Grade Summer Science Activity

“What Makes Ice Melt Faster”

Introduction

Living in South Florida allows us to have year round tropical weather and never have to be bothered with any snow or ice. Snow and ice make it difficult to drive and get around in your community. Have you ever wondered how areas in the north keep the roads safe for driving when they have snow and ice on them? This science investigation will help you learn what the communities up north use to melt ice and keep the roads safe.

Materials

- 2-3 Ice Cubes
- Muffin tin (*see picture below*), mason jars, or any container to hold ice cubes
- Various Solids: salt, sugar, baking soda, sand, and flour
- Timer/stopwatch

Procedures

1. Put 2-3 ice cubes in 5 separate containers for each solid.
2. Pour each solid over the ice so that they are completely covered.
3. Start your timer/stopwatch.
4. Write your name on the Activity Sheet and answer the prediction/hypothesis question. Complete the table for each solid and document the time it took to melt the ice.
5. Continue to check the ice every 4-5 minutes
6. Was your hypothesis/prediction right?

Your task

Complete the Activity Sheet and turn it in to your teacher on August 23rd.
